

How to make a butterfly feeder

What you need:

- card
- plastic bottle top
- scissors
- a straw or cane
- sellotape
- a pot with soil in it
- cotton wool
- colouring pens or pencils
- sugar
- water

1 Draw a flower on your card and colour it in with bright colours, then cut it out.

2 Stick a plastic bottle top in the centre.

Put your feeder outside, somewhere sunny on a warm day.

3 Use sellotape to stick the straw or cane onto the back of the flower, and stand it in the pot of soil.

4 Mix the sugar with some water and soak the cotton wool in the solution.

5 Put cotton wool inside bottle top.
